

## Courses taught in English at the Faculty of Economic Sciences

<b>Module No.:</b> M.SIA.E10	<b>Credits:</b>
<b>Title:</b> Economic of Biological Diversity in the Tropics and Subtropics	6
<b>Course Content:</b>  The course consists of two parts. The first part contains lectures on the basics of the economic importance of biodiversity and ecosystem services, and a writing lab, i.e. exercises and information on good scientific writing. The focus of the entire course is in writing a high quality term paper; thus, students are encouraged to present and discuss their intermediate results in class. The first part is concluded by handing in a first version of the term paper. The second part of the course consists of research work on improvements of the term paper.	<b>Course Type:</b>  Lecture with writing lab

<b>Recommended Prerequisites:</b>  Introductory courses in agricultural, environmental, institutional, development or micro-economics	<b>Exam:</b>  Preliminary term paper, final term paper
<b>Recommended Semester:</b>  No specific recommendation	<b>Cycle:</b>  every winter semester
<b>Literature:</b>  No specific recommendations	<b>Lecturer:</b>  Dr. Jan Barkmann
