

Georg-August-Universität Göttingen Modul M.WIWI-VWL.0112: Financial Markets and the Macroeconomy <i>English title: Financial Markets and the Macroeconomy</i>		6 C 2 SWS
Lernziele/Kompetenzen: The seminar focuses on the interdependences between financial markets and the macroeconomy. Motivated by the Great Recession, we discuss various channels through which financial markets may have an effect on real macroeconomic variables. Further, the international dimension of financial markets is highlighted, by discussing international transmission channels of financial shocks. Students acquire knowledge about the role of international financial markets for the macroeconomy. Further, students apply their statistical and econometric knowledge to relevant economic questions.		Arbeitsaufwand: Präsenzzeit: 28 Stunden Selbststudium: 152 Stunden
