

# DREAM OF A PAINTER

40 mins/HDV/2011/In English with subtitles

**A personal *live-cinema* documentary film about the British painter & sculptor ROBERT ORD PAGE (1922-2010).**

**Robert lived at Seaham on the coast of the North Sea in North-east UK. He worked all his life as a coal-miner in under-the-sea coal-pits at Seaham and hated his job. Late in his life, after retiring from the mines, he took to his life-long passion of painting at the age of 70 years. He painted his memories and nightmares in bold strokes and colours. And in his 87th year when he was living on periodic blood-transfusion, he could hardly paint but shared with us the wonderful stories of his life and yes, his compulsive dreaming....**
