

## Courses taught in English at the Faculty of Economic Sciences

<b>Module No.: N.N.</b>  <b>Title: Seminar on Empirical Political Economics</b>	<b>Credits:</b>  6
<b>Course Content:</b> We will cover several empirical methodologies for studying research questions in political economics. For example, we will study panel data models, matching methods, instrumental variables, and regression discontinuity designs. These methods will be discussed primarily from an applied perspective.  <b>Qualification aims:</b> Students are expected to understand and summarize academic research papers. They will improve their ability to conduct research on questions in the field of political economics. They will learn to present their ideas in a clear and structured manner. Finally, they will become familiar with the current literature in empirical political economics.  <b>Exam requirements:</b> Good understanding, synthesis, and presentation of the academic literature. Participation to discussions during the seminar.	<b>Course Type:</b>  Seminar
