**Research Forum 2018**

**„Digital Supply Chains and the Human Factor“**

December 10<sup>th</sup> and 11<sup>th</sup> 2018, Oeconomicum Göttingen

---

**Objective**

In order to foster the dialogue between business practice and academics as well as university teaching and research, the Research Forum is establishing a science discourse among students, academic and corporate speakers. The 2018 topic is the digitalization of production, logistics and supply chains leading to new requirements for human capabilities and collaboration. Selected presentations will be published in a contributed book (Springer LNL, [springer.com/series/11220](http://springer.com/series/11220)) for further transfer and discussion.

**Program**

Monday, December 10<sup>th</sup> 2018 (*Room OEC 0.211*)
