## B.Sc. Molecular Ecosystem Sciences - STIPEND

The program B.Sc. Molecular Ecosystem Sciences offers a small stipend for MES students, who conduct an internship or exchange semester (during the 4<sup>th</sup> elective semester) outside of the University Göttingen. The stipend is only available for MES students, who do not have any other funding source (scholarship, salary, etc.) during that time. Still, MES students are encouraged to apply for other scholarships themselves.

MES stipend: 250 € per month for 4 month

### Application requirements:

- Enrollment in the B.Sc. MES program
- Internship or exchange semester approved for the 4th (elective) semester
- No other funding sources (internships, student assistant job, etc.) available during that time
- Duration of the internship/ exchange semester min. 4 month

### Application procedure:

- Find an internship opportunity or arrange an exchange semester
- Arrange a learning agreement or get an acceptance/ confirmation letter if necessary
- Communicate your plans with the MES coordinator, to make sure they fit the program requirements
- Forward the learning agreement or acceptance/ confirmation letter from your host institution to the MES coordinator
- Fill the necessary forms to apply for the MES stipend (forms available via [mes@gwdg.de](mailto:mes@gwdg.de))
