

<b>Georg-August-Universität Göttingen</b> <b>Module M.WIWI-VWL.0131: Business Cycles in Developing Countries</b> <b>(Seminar)</b>	6 C 2 WLH
---	--------------

<p><b>Learning outcome, core skills:</b></p> <p>The seminar focuses on current topics associated with business cycles in developing countries. Business cycles in developing countries display different characteristics than those in their developed counterparts. We therefore discuss the transmission of shock in developing countries and whether stabilizing policies be different compared to developed countries.</p> <p>Moreover, we examine whether the extent to which business cycles in developing countries are explained by global, regional, country-specific, and idiosyncratic factors, is different compared to developed countries.</p> <p>The focus of this seminar will be on the empirical rather than the theoretical literature.</p>	<p><b>Workload:</b></p> <p>Attendance: 28 hours</p> <p>Independent study: 124 hours</p>
