1. What is the guest student project for Refugees?
The German university system with its particularities can be confusing for people with experience of studying in other countries. You need at the beginning of the studies time for orientation. The program for guest students allows refugees a first look at a German university, to prepare for a regular academic program. If the conditions for a university access (for example the language requirements) are achieved, you can start immediately because you would be already prepared for that through the guest students program.

2. Who can participate?
Refugees, who want to continue their studies or make a fresh start. There are no records of qualifications or testimonies required.

3. What are the language requirements?
To use the offers, knowledge of German (B1 / B2) and / or English (B1 / B2) are useful. This is highly dependent on the desired subject of studies and can be clarified in each individual case.

4. How high are the costs?
The program is free for Refugees.

5. What is the next step?
Anyone interested can visit the office hours for Refugees or arrange an individual appointment to seek advice.
The first step to register in this program is to fill out the online application: www.uni-goettingen.de/open-lectures-interest
Further steps are then notified via email.
