

November 2018

## Welcome to the International Summer School June 22 – August 2, 2018

It is a pleasure for us to send you University of Oslo's brochure for The International Summer School 2019.

The ISS offers 14 Bachelor's courses focusing mainly on Norwegian language, culture and society, and 7 Master's courses on topics of broad international interest. The courses adopt a comparative perspective, where the Norwegian case may serve as a basis for future dialogue and discussion. All our courses offer ECTS credit points.

We also offer a limited number of partial and full scholarships. Students who are self-financed; sponsored by their home institution, or only dependent on a partial scholarship have better chances of admission than students who apply for full scholarships.

The application deadline for qualified scholarship applicants is **February 1, 2019**. The deadline for qualified self-financed/sponsored applicants is **March 1, 2019**.

Interested candidates can apply online from our website beginning December 4, 2018.

The International Summer School (ISS) at the University of Oslo has offered intensive summer courses since 1947. Nearly 30,000 students from more than 150 countries have attended our program. In 2018, the ISS welcomed 534 students from 81 different countries to six intensive weeks of learning both inside and outside the classroom. As in earlier years, the evaluations from students and staff alike were very positive, giving testimony of six weeks of academic achievement combined with a rich social environment and activities program.

We would appreciate if you could announce the International Summer School program and scholarship opportunities to relevant institutions and individuals. Further information about scholarships, the application process and the program itself, can be found in the enclosed ISS 2018 brochures and on our website. If you would like more posters or brochures, please do not hesitate to contact us at (+47) 22 85 63 85 or [iss@admin.uio.no](mailto:iss@admin.uio.no).

We thank you for your continued support of the ISS.

Sincerely yours,

Nita Kapoor  
Director
