

Nirmiti Hiking 2017 to Titan RT

On 2nd September

Dear Nirmiti Members, we planned for a hike to Titan-RT, pedestrian suspension bridge in the Harz Mountains, opened in 2017 and 483m long. The cable bridge is in the areas of Oberharz am Brocken and Thale in the Saxon-Anhalt region of Harz. The bridge hangs over the part of the reservoir of the Wendefurth dam, which is connected to the Luftseite der Staumauer the Rappbodetalperre.

The 483m long building is one of the long pedestrian masts on the earth and with 458.5m from March to July 2017 it was probably the longest free-hanging section of all such bridges until the Charles Kuonen Hängebrücke was opened in Switzerland in July 2017.

Departure:

Outward journey on 02.09.17
