

Ecology Seminar

Winter Semester 2023/2024

Functional Agrobiodiversity & Agroecology, University of Göttingen
Prof. Dr. Catrin Westphal

Wednesdays, 10:15 - 11:30 a.m. CET, in presence (L318) and via [Zoom*](#)

Date	Name	Title
25.10.23	Dr. Marco Ferrante Functional Agrobiodiversity & Agroecology, University of Göttingen	The use and future prospects of non-lethal methods in entomology
01.11.23	Dr. Martin Komainda Graslandwissenschaften, University of Göttingen	Integrational Grassland for multifunctional benefits
08.11.23	Qian Zhang Functional Agrobiodiversity & Agroecology, University of Göttingen	Promoting agro-biodiversity and related ecosystem service with landscape-scale measures PhD progress report
15.11.23	Ira Hannappel Functional Agrobiodiversity & Agroecology, University of Göttingen	Interactive effects of local and landscape restoration on plant-pollinator interactions in calcareous grasslands - PhD progress report
22.11.23	Kyra Zembold Functional Agrobiodiversity & Agroecology, University of Göttingen	Designing diverse and productive landscapes with agri-environmental collectives - PhD progress report
29.11.23	Philippe Tschanz Agroscope, Agroecology and Environment, Zurich, Switzerland	Ground-nesting of wild bees – key drivers, impacts of agricultural management, and consequences for soil structure
06.12.23	Dr. Wopke van der Werf Wageningen University, Centre for Crop Systems Analysis, The Netherlands	Ecological intensification of agriculture by intercropping
13.12.23	Dr. Elena Velado Alonso Functional Agrobiodiversity & Agroecology, University of Göttingen	Within field arthropod conservation in Mediterranean agricultural areas: the showcase project experience.
10.01.24	Lena Frank Bieneninstitut Kirchhain	Effects of different beekeeping concepts on the vitality of <i>Apis mellifera</i>
17.01.24 Zoom only	Dr. Gabor Pozsgai University of the Azores, Portugal	Long-term trends in arthropod decline: The case of the Azorean islands
24.01.24	Dr. Francesco Lami Department of Agricultural and Food Sciences, University of Bologna, Italy	Species-habitat networks: A tool to improve landscape management for biodiversity conservation
31.01.24	Isabelle Arimond Functional Agrobiodiversity and Agroecology, University of Göttingen	Cooperative agri-environmental measures and their ecological effects on bird richness and insect pollinators along a landscape diversity gradient - PhD progress report
07.02.24 Zoom only	Dr. Antonio Cusumano Scienze Agrarie, Alimentari e Forestali University of Palermo, Italy	Hidden players in plant-insect interactions: nectar-inhabiting microbes affect the foraging behavior and performance of insect parasitoids

Zusatztermin 25.01.24 (held in German) Akademie im Gespräch - Artensterben: Was können Naturschutz und Landwirtschaft tun? Altes Rathaus Göttingen um 18.15 Uhr, Eintritt frei
