## ACADEMIC WORK

---

### Bachelor thesis

#### Working Conditions on Cruise Ships

- Analysis of the working conditions on Cruise Ships by conducting an online survey in the form of a semistructured interview including qualitative and quantitative questions. 118 workers of 24 different countries employed on Cruise Ships answered the questionnaire.
- Comparison of the empirical data with the working regulations of the Maritime Labour Convention issued by the International Labour Organisation.

### Research Papers written during my Master studies:

#### Tourism in Rural Areas. How can tourism support a sustainable Rural Development

Course: Agricultural and Rural Development

- A literature review and comparison of different approaches to tourism in rural areas with a focus on how to use tourism for a sustainable rural development.

#### Internet Media in Latin America's "Troika of Tyranny". An Analysis for Venezuela, Cuba and Nicaragua

Course: International Media Development Cooperation and Development Journalism

- An analysis of the online media markets of Venezuela, Cuba and Nicaragua using a theoretical approach based on the four dimensions to analyse media systems proposed by Hallin and Mancini.

#### Comparison of the Compliance with governmental restrictions in the societies of Syria, Germany and Nigeria

Course: Advanced Qualitative Research Methods for Development Studies

- A qualitative and quantitative Content Analysis of semistructured qualitative interviews with Syrian, German and Nigerian citizens in the respective country conducted by using the online communication tool of Zoom.

#### Alternatives to "Sustainable Development"

Course: Sustainability

- A literature review and comparison of the paradigms of buen vivir, permaculture and ubuntu as alternative to western mainstream "sustainability" and "sustainable development" notions.

#### How do German political parties understand gender?

Course: Gender and Development

- A Content Analysis of the political programmes of German political parties and a Literature Review focusing on the understanding and conception of gender in German politics.

### Master thesis (in process)

#### National and international Disaster Response to Hurricane Maria on the Caribbean islands of Dominica, Guadeloupe and Puerto Rico

- Envisaged Discourse Analysis of Internet Media and qualitative Interviews of inhabitants, governmental bodies and international disaster response organizations concerning the situation after Hurricane Maria and the recovery processes on the islands of Dominica as independent state and member of the Commonwealth, Guadeloupe as overseas department of France and Puerto Rico as US territory. Main focus will be to analyse how the different nationalities of the islands affected the disaster response after the Hurricane.
