Georg-August-Universität Göttingen Modul M.WIWI-VWL.0008: Development Economics I: Macro Issues in Economic Development

English title: Development Economics I: Macro Issues in Economic Development 6 C 4 SWS

Lernziele/Kompetenzen:

After successful completion, students will be able to understand why countries in the world are at different stages of economic development and how such development can be measured using different metrics. They can explain how historical income differences between countries developed, they can use theories of growth and trade to evaluate the constraints faced by developing countries. They can critically evaluate the role of population growth as well as aid and debt in affecting development, and they will be able to analyze regressions to evaluate determinants of economic development.

Arbeitsaufwand: Präsenzzeit:

Präsenzzeit: 56 Stunden Selbststudium: 124 Stunden

Lehrveranstaltungen:

1. Development Economics I (Vorlesung)

Inhalte:

Overview of macroeconomic issues and approaches to analyzing problems of developing countries. Topics include measurement of development, historical evolution of income differences, growth theory, and linkages between globalization, aid, debt, population, the environment, and inequality and economic development.

2 SWS

2 SWS

2. Development Economics I (Übung)

Inhalte:

The exercise session is used to deepen understanding of concepts used in the lecture, discuss relevant literature, and apply concepts and methods developed in the lecture.

Prüfung: Written examination (90 minutes)

Prüfungsvorleistungen:

Submission of 6 exercise sheets (of sufficient quality). The exercises deepen the understanding of concepts and empirical methods taught in the lecture and apply it to specific cases.

Prüfungsanforderungen:

The students are able to explain concepts of economic development, their measurement, and the historical evolution of the development of countries. They demonstrate a good understanding of key theories and models of economic development, including growth and trade models. They are able to critically present these theories and models, are able to interpret empirical results from regression analyses that relate to these models, and are able to draw relevant policy conclusions coming out of these models and empirical assessments.
