Fridays 11:15 am

15. Mai 2020

Prof. Dr. Dirk-Jan de Koning, Swedish University of Agricultural Sciences, Uppsala
“Genetic improvement of bone health in laying hens”

Host: Animal Breeding and Genetics, Prof. Henner Simianer

29. Mai 2020

Dr. Kelly Swarts, Gregor Mendel Institute of Molecular Plant Biology, Vienna
“Adaptation in Complex Traits”

Host: Plant Breeding Methodology, Prof. Tim Beissinger

19. June 2020

Prof. Dr. Rod Snowdon, Justus-Liebig-University, Giessen
“Finding invisible targets to enhance genetic gain in plant breeding”

Host: Crop Plant Genetics, Prof. Stefan Scholten

3. July 2020

Prof. Dr. Jan de Vries, Georg-August-University, Göttingen
“Plant terrestrialization: streptophyte algae and the deep roots of embryophytic stress response”

Host: Breeding Informatics, Prof. Armin Schmitt
