Please notice that during the whole event photos will be made which are used for printed and online publications of the University of Göttingen. Please inform the photographer or our team at the Info Point if you not agree with publications.

The joint booth „business community of south lower saxony“ is supported by:

WELCOMING SPEECH

Welcome to the University’s job and career fair, the PRAXISBÖRSE 2019!

The lively and informal atmosphere at the PraxisBörse has seen countless liaisons between companies, students, doctoral candidates, graduates and postdocs over the past 21 years, resulting in hundreds of connections, whether for internships, jobs for working students, practice-orientated theses and many more, which often laid the foundations for stable professional development. And so, with direct employment in suitable trainee programmes and concrete job offers, many a career starts at the PraxisBörse.

On two consecutive days of the fair, more than 100 attractive employers will once again be presenting their offers to visitors this year.

On the first day of the PraxisBörse at the North Campus, the companies will focus mainly on students and early career researchers in the natural and life sciences.

The following day, on the Central Campus in the Central Lecture Hall Building (ZHG), the offers are aimed at students, early career researchers and graduates of all faculties and surrounding universities. Regional, national and international companies are represented, as are small and medium-sized employers from the region, who will be presenting themselves at the joint booth “Economy of Southern Lower Saxony” (“Wirtschaft Südniedersachsen”) in the Central Lecture Hall Building.

An extensive and engaging preliminary and supporting programme offers attendees the opportunity to gather information on career prospects and prepare for the start of their career.

Special thanks go to the numerous sponsors of the PraxisBörse and the supporters of the joint booth “Economy of Southern Lower Saxony”, who make a successful event such as this possible, as well as to the team of the PraxisBörse for their professional organisation and to all supporting institutions for their wide range of offers.

I wish all those involved interesting conversations, valuable perspectives and huge success in future collaborations.

Prof. Dr. Ulrike Beisiegel
President of the Georg-August-Universität Göttingen
Dear students, doctoral candidates, graduates and post doctorates,
Dear exhibitors,

We would like to extend you all a warm welcome to the PRAXIS BÖRSE 2019!

Every year, stories of success are born at our job and career fair, motivating us to steadily expand the event for all those attending. As a result, the topic of internationalisation is becoming increasingly popular at the PraxisBörse and, for the first time ever this year, we are pleased to be able to offer our English-speaking visitors an English-language fair catalogue in printed form.

Dear visitors, use the PraxisBörse as an opportunity to establish initial personal contacts for your future career with the exhibiting companies, to search for internships, jobs for working students or partners for practice-orientated final theses and to find promising entry-level positions.

On both days of the fair, representatives of more than 100 companies are prepared to answer any questions you may have about starting your career.

We are pleased to be able to expand the circle of exhibitors this year with numerous attractive companies. At the same time, we would like to thank the companies that regularly participate in the PraxisBörse for introducing themselves as future employers to our students, doctoral candidates, graduates and post doctorates.

The event's extensive preliminary programme ensures optimal preparation for liaisons at the company stands. Here, the faculties and institutions of the University are once again providing an interesting and helpful range of topics on applications, one's own competencies and vocational orientation. In addition to company presentations, the supporting programme also offers interesting topics on job applications and career strategies on both days of the fair.

We hope that all attendees of the PraxisBörse have stimulating discussions and leave the fair with a concrete idea of their professional orientation, and we wish you huge success in searching for and finding suitable new recruits and future employers.

START-UP SUPPORT

From your idea to your business formation

We support students, staff members and scientists who are engaged in Göttingen’s university and high schools. Apart from consulting (initial and follow-up), we help finding and applying for funding. Numerous events and workshops provide practical knowledge for entrepreneurs and those interested in becoming one. Moreover, we support young founders with their networking – connecting to partners and mentors or even working facilities.

Our services

- Consulting (initial / follow-up)
- Funding support
- Events, workshops and lectures concerning entrepreneurship
- Working space
- Start-up competition LIFT-OFF
- Search for team members, Help on team-building
- Regional networking (entrepreneurs, mentors and partners from economy)
- Jobs, theses, internships in cooperation with regional start-ups

GÖTTINGEN CAMPUS POSTDOC NETWORK

Booth 29 Nord | Booth 44 ZHG

Founded in 2017, the Göttingen Campus Postdoc Network connects Postdocs across all institutions and disciplines of the Göttingen Campus (GC) - see www.goettingen-campus.de. Although the GC Postdoc Network is set up to serve the needs of Postdocs (defined as doctorate holders who conduct research with a time-limited contract), it welcomes late stage doctoral students, science management, and other early career researchers, including visitors, who would benefit from the support of the Network. If you identify as a GC Postdoc, then you are part of the community! Simply sign up at bit.ly/GCPostdocNetworkSIGNUP on the GC Postdoc Portal www.bit.ly/GCPostdocs.

The main goals of the GC Postdoc Network are to improve the Postdoc experience at the Göttingen Campus, and to ensure that the Postdoc community is valued, understood and heard. Thanks to the Network, Postdocs can easily exchange information and views, develop their ideas and represent their interests more strongly. A small group of postdoc volunteers form the GC Postdoc Committee. Their activities include: identifying relevant issues in the Postdoc community; looking for solutions and channeling these to the relevant authorities; providing appropriate advice and information to the community through the website and a monthly newsletter; and organising events. The Committee also champions equality, diversity and interdisciplinarity at every opportunity. Come and meet us at our stall!

Follow YOUR Career Path!
TIPS AND INTERESTING FACTS FOR STUDENTS

In three steps to your application success

Before the PraxisBörse

- **Informing**: On the pages of the PraxisBörse are all information about workshops, talks and persons to contact available. An additional research about the companies, their contact persons and searched positions are helpful for your orientation at the fair.

- **Preparing**: Which company could be your next employer? Address your application documents to them and hold all documents ready.

- **Positioning**: There is no dresscode on the PraxisBörse but have in mind that your appearance can catch the attention of our companies.

At the PraxisBörse

- **Recognizing**: Stay alert and keep your ears open, even if you are not looking for a job. In conversations with our companies they could present you the prospect of an internship or a topic for your graduation work.

- **Communicating**: Talk to potential employer and don’t avoid the first contact. They appreciate concrete inquiries and gladly note your contact details.

- **Orientating**: You can inform yourself on both fair days about open job postings. Those postings are available on our exhibitor portal beforehand www.uni-goettingen.de/praxisboerse

After the PraxisBörse

- **Asking**: Stay in touch with interesting exhibitors. If you had a nice conversation, feel free to contact them after the fair. They will gladly remember you.

- **Working over**: You are indecisive about the next steps? Get in touch with our Career Service, they can help you with the creation of a personality Profile, an individual route-strategy or a check of your application documents.

- **Following up**: Use your experience from the PraxisBörse for your future orientation. All conversations with exhibitors and all information about employer and their application process will help you in future applications and conversations!
A typical job application in English includes a CV, cover letter and sometimes a statement of purpose. Read the job description carefully to see which documents are required and whether you meet the requirements.

The following is a brief overview of the application documents.

**CV**

- 1 – 2 pages long (academic CVs can be longer)

- CVs include your name, address, phone number, email address, employment history and education.

- Non-relevant employment and early education are not necessarily included.

- In English speaking countries photos, date of birth, gender and marital status are not included on the CV.

**Cover Letter**

- 1 page long

- 3 main criteria to 'AID' you in writing a successful application:
  - Attention: capture the reader's attention.
  - Interest: highlight your qualifications, experiences, skills to ensure the reader remains interested in you.
  - Desire: make the reader want to meet you (by showing what you can offer).

- A cover letter is intended to complement your CV, not to duplicate it.

**Statement of Purpose**

- 2 pages maximum unless otherwise stated.

- Generally written like an essay.

- Elaborates on you as a person and your personal qualities.

- Introduction
  - Who are you? Why are you writing? What position are you interested in? Where and when did you see the position advertised?

- Main body
  - What do you have to offer? What can you bring to the company/university? Highlight your most relevant skills and experience.

- Conclusion and Platitudes
  - “I look forward to hearing from you” “Yours faithfully”, “Yours sincerely”

**Certificate Programme**

**Building International Careers**

- Are you looking for a job or internship?

- **Set your individual goals**

- **Create a plan of action in collaboration with other students**

- **Develop your own international profile in workshops**

- **Get professional advice from the Career Service team**

**Discover A World of Opportunities!**

- [www.career.uni-goettingen.de/bic](http://www.career.uni-goettingen.de/bic)

**Complete Application-Checks possible**
