

Mentor Geoscience Students: Pitch Your Real-World Project!

Call for Winter Semester 2026/2027 · Submit your project by 01 October 2026

What is this about?

- Offer a geospatial project to a team of 3–4 motivated master's students of [M.Geg.12.](#)
- Projects are coded in R or Python — budget ~330–440 h of team effort.

Who can be a mentor?

- PhD students, postdocs, professors
- Professionals from government, industry, or NGOs
- Anyone with a geospatial challenge

Why become a mentor?

- Get innovative solutions to your geospatial problem
- Connect with top students: potential hires or collaborators
- Receive reproducible R/Python code: notebook, app, or pipeline

What to do now?

- Pitch your project idea (just a slide!)
- Meet your team, set milestones, assess their work — your assessment informs the grade
- Attend a final student conference

Cartography
GIS
Remote Sensing
