

3. CAPACITY BUILDING WORKSHOPS

1. ABS Workshop, held on November 4, 2021: Updates on the implementation of the Nagoya Protocol in Indonesia, Japan and India.
 - The hybrid workshop, conducted by IPB University was attended by 135 participants from Indonesia, Japan and India.
 - Aims: Introduction to current/respective country policies & regulations, to decision-making processes and tools in Access & Benefit Sharing in order to facilitate the effective implementation of Nagoya Protocol (NP).
 - The different countries shared their experiences. For the Indonesian site, Aiyen Tjoa presented the hindrances that an international research partnership may face to implement the NP, taking *EFForTS* as an example.
- In conclusion: Each country has its unique system on which its builds on. Both Japan and India – although having similar procedure compared to in Indonesia – involve fewer institutions with regard to the management of NP. At the same time, the legislation is more complete and effective than in Indonesia.

The poster features a background image of a lush tropical forest with a large purple and white flower in the foreground. The text on the poster includes:

Access and Benefit-Sharing (ABS) Workshop
"Recent Updates on Nagoya Protocol Implementation in Indonesia"

Welcoming Speech
 Prof. Iskandar Z. Siregar
 Director of International Program,
 IPB University

Moderator
 Dr. Muhammad Agil
 Faculty of Veterinary Medicine,
 IPB University
