

# Your future in safe hands

To support our team, we are currently seeking a

## Scientist with experience in Metabolism (plant/animal) m/f Ref. No. 2013-03/HP

### Role and responsibilities:

- ▶ Reporting/scientific writing of metabolism studies of agrochemicals in compliance with registration requirements
- ▶ Preparation of study summaries and dossiers for the regulatory authorities, according to e. g. EU/OECD guidelines
- ▶ Monitoring of metabolism studies on behalf of our clients
- ▶ Communication and close co-operation with our clients, in particular global industries
- ▶ Build-up, maintain and share practical knowledge in a growing, strongly team-oriented working group

### Profile and qualifications:

- ▶ At least 3 years professional experience in the field of plant and/or animal metabolism
- ▶ Laboratory experience with studies in a GLP environment
- ▶ University degree in analytical chemistry, food chemistry, biochemistry or equivalent
- ▶ PhD or equivalent professional training would be a benefit
- ▶ Good knowledge of structure elucidation (based on MS/MS-Data) would be a benefit
- ▶ Very good knowledge of standard office software
- ▶ Good interpersonal skills and the ability to manage complex projects
- ▶ Excellent language skills in English and German (spoken and written); additional language skills would be an asset
- ▶ Ability to work in a team, self motivated and skilled in advocacy

### Benefits:

You will be working in a modern, professional, fast growing internationally active organization with a high degree of responsibility and independence. Intensive on-the-job training will be provided in a competent multi-disciplinary team.

**Location:** Area of Leverkusen, Germany

Dr. Knoell Consult GmbH was founded in 1996 in Mannheim, Germany, with offices in Mannheim, Leverkusen, Berlin and Wageningen (NL) as well as subsidiaries in Basel (CH), Cardiff (UK), Bristol (UK), Shanghai (CN) and Chiang Mai (TH). With more than 300 employees, we offer independent consultancy to the Agrochemical, Chemical and Pharmaceutical Industries. Our main focus is registration of agrochemicals, biocides, industrial chemicals and pharmaceuticals. Our services include the evaluation of data completeness, compilation and assessment of raw data, preparation of risk assessments and dossiers for submission to the relevant authorities.

Please submit your complete application in English or German by e-mail, including a detailed curriculum vitae, salary expectation and availability.
