

Ecology seminar

Functional Agrobiodiversity, University of Göttingen (Prof. Dr. Catrin Westphal)

Agroecology, University of Göttingen (Prof. Dr. Teja Tschardt)

BBB-Room: <https://meet.gwdg.de/b/tej-hzm-g74>

Time: **Wednesday 10:15 - 11:45 am**

Winter semester 2020/21

Date	Name	Title
04.11.2020	Prof. Dr. Emily Poppenburg-Martin (Zoological Biodiversity, Institute of Geobotany, Leibniz University Hannover)	Arthropod functional diversity and ecosystem services in farmland: pathways for prediction
11.11.2020	Anjahanony Andry Ny Aina Rakotomalala (University of Antananarivo, Madagascar)	Tropical land-use drives endemic vs. exotic ant communities in a global biodiversity hotspot
18.11.2020 11:30	Dr. Laura Sutcliffe (University of Göttingen, Plant Ecology and Ecosystem Research) Lena-Marie Riese Weber (Functional Agrobiodiversity, University of Göttingen)	Conservation challenges in intensive agriculture: insights from the FRANZ project Master-Kolloquium: Communities of cavity-nesting bees and wasps in lime-stone quarries in southern Lower Saxony: A comparison between the years 1999 and 2019 and current influences of land-use types in the surrounding landscape
25.11.2020	Mina Anders (Functional Agrobiodiversity, University of Göttingen)	The effect of climate and land-use change on diversity of pollinators and pollination services in macadamia plantations and adjacent land-use types
02.12.2020	Dr. Thijs Fijen (Plant Ecology and Nature Conservation, Department of Environmental Sciences, Wageningen University & Research)	Ecological intensification
09.12.2020	Nicole Beyer (Functional Agrobiodiversity, University of Göttingen)	The effect of diversified crop rotations with faba beans (<i>Vicia faba</i> L.) on pollinators and pollination services (PhD defence)
16.12.2020	Dr. Anoush Ficicyan (Agroecology, University of Göttingen)	Intercropping vegetables influences biodiversity and ecosystem services
13.01.2021	Dr. Kevin Darras (SATLab, Westlake University, Hangzhou)	Reconciling conservation of birds and bats and crop production in Sumatra, Indonesia
20.01.2021	Carolina Ocampo-Ariza (Agroecology, University of Göttingen)	Pest control services offered by vertebrates and invertebrates in native cacao plantations of Peru (PhD progress report)
27.01.2021	Prof. Dr. Stefan Scheu (J.F. Blumenbach Institute of Zoology and Anthropology, University of Göttingen)	Soil food webs: structure, evolution and links to the aboveground system
03.02.2021	Dr. Maj Rundlöf (Lund University Department of Biology, Biodiversity)	Bees, flowers and pesticides – managing agricultural landscapes for biodiversity and crop production
10.02.2021	Dr Romina Rader (Community Ecology (Plant-Animal Interactions), School of Environmental and Rural Science, University of New England)	The need for systems-level approaches to better understand and manage pollination ecosystem service delivery
