Corporate Visit in Osaka

About The Program: Explore Your Future in Japan - OSIP Short-term Career Development Program

Are you a university student interested in building a career in Japan? The OSIP Short-term Career Development Program at Kansai University offers a dynamic 7-day experience that brings together international and Japanese students to explore career possibilities in a global context. Before arriving in Osaka, participants join an online session and complete an on-demand course on career development in Japan. On-site, the program kicks off with a warm welcome, campus tour, and ice-breaking activities, followed by interactive, project-based workshops on team building, cross-cultural communication, and essential workplace skills.

A key highlight is a corporate visit to a Japanese company, providing firsthand insight into local work culture and opportunities to connect with professionals. The week concludes with a cultural exchange and group reflection. In just one week, you'll gain valuable skills, expand your global mindset, and take a meaningful step toward your future. Join OSIP — and be a changemaker.

Eligibility

- Applicants must be undergraduate or graduate students currently enrolled at an accredited college, university, or research institution outside Japan.
- English proficiency sufficient for basic communication (CEFR level B1 or above recommended)
- No Japanese language ability required

Application Period

February 25 – March 27

Applications must be submitted through your university coordinator.
