

SUMMER SEMESTER 2026

RTG 2756 CYTAC SEMINAR SERIES

TUESDAY, JULY 14
17:00 IN HS5

CYTAC

RTG 2756

PROF. DR. SARAH DETZLER

Business Information Systems

Baden-Württemberg Cooperative State University (DHBW)

THESE GRAPHS ARE ON FIRE

Knowledge Graphs are rapidly gaining traction across industries. They make it possible to move beyond merely storing data, allowing us to connect information semantically and place it into context. In this presentation, you will discover how Knowledge Graphs bridge the crucial gap between unstructured data and intelligent utilization. Yet, the potential of Knowledge Graphs extends far beyond traditional data management. Using real-world examples, this talk demonstrates how Knowledge Graphs are deployed in the industry to support machinery maintenance and combat wildfires.
