

## Kick-Off-Meeting

**Friday the 13.11.2015, 1.00 pm, Hörsaal 3, Faculty for Physics**

To celebrate the founding of the *International Center for Advanced Studies of Energy Conversion* (ICASEC) we invite you to the Kick-Off-Meeting. The goal of the newly founded center is to strengthen the University of Göttingen in the area of energy science by supporting basic research, international exchange, and educational outreach. We have invited distinguished speakers from the field of energy science who will highlight topics in this research area.

### Program

13.00	Welcome of the president of the <i>Georg-August-Universität Göttingen</i> <i>Prof. Dr. U. Beisiegel</i>
13.05	ICASEC – Overview and Goals <i>Prof. Dr. A. Wodtke, Speaker ICASEC, Georg-August-Universität Göttingen</i>
13.20	Catalysis for Energy <i>Prof. Dr. R. Schlögl, Max-Planck-Institut für chemische Energiekonversion, Mülheim an der Ruhr</i>
14.10	Molecular water oxidation catalysts within the energy context - A historical perspective and future outlook <i>Prof. Dr. A. Llobet, ICIQ – Institute of Chemical Research of Catalonia, Spain</i>
15.00	Coffee break
15.20	Thin film solar energy materials and devices <i>Prof. Dr. K. Durose, University of Liverpool, UK</i>
16.10	From Thermal to Electro-Catalysis: A First-Principles Multiscale Modeling Perspective <i>Prof. Dr. K. Reuter, Technische Universität München</i>
17.00	Poster session – ICASEC members introduce themselves
