Dear international researchers,

We would like to invite you and your families to a professionally guided tour: 

Great Moments of Mathematics – Gauß in Göttingen.

Already as a child, Gauß drew attention for his extraordinary mathematical talent. In 1807, he became Professor for Astronomy and Director of the Observatory in Göttingen. Here he did groundbreaking work in the fields of Mathematics, Astronomy, Geodesy, and Physics.

Even though Gauß has received several offers from other honourable universities, he stayed in Göttingen until his death. On this guided tour, the places where Gauß lived and worked will be brought back to life.

Wednesday, 17.04.2019, 16:00-18:00
Meeting Spot: Markt 9, Old Town Hall, tourist info close to the Gänseliesel.

Please let us know with how many people you would like to participate and please tell any other international guests who would like to participate to get in touch with us: welcome@uni-goettingen.de

We are looking forward to meeting you again!
