

COURSE EVALUATIONS ARE GOING ONLINE!

What do students need to
know?

What is changing?

In the 18/19 WiSe
6 pilot faculties will
hold their first Online-
in-Präsenz evaluations:

- Faculty of Humanities
- Faculty of Chemistry
- Faculty of Mathematics and Computer Science
(Mathematics only)
- Faculty of Biology and Psychology
- Faculty of Economic Sciences
- Faculty of Social Sciences

What is changing?

Moving from paper-based
evaluation to Online-
in-Präsenz

ONLINE ...

- Questionnaires are created digitally and evaluations are carried out in Stud.IP via Internet-compatible mobile devices.

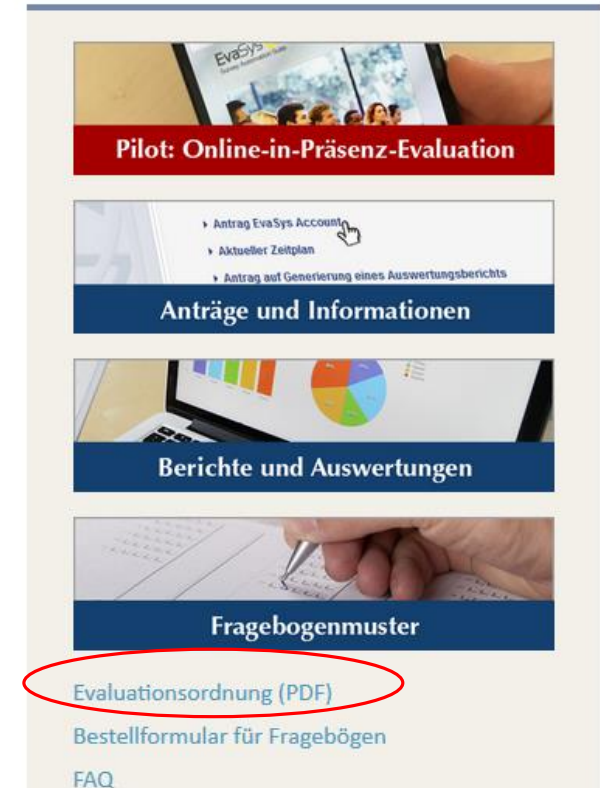

IN-PRÄSENZ ...

- Between 7-25 January 2019 students will be asked by teachers to complete the online evaluation while in class.

What stays the same?

evaluations
are anonymous and
voluntary!

- The process, aims and legal basis are regulated in the Evaluation Regulations.
- There is a link to the regulations on the course evaluation website:

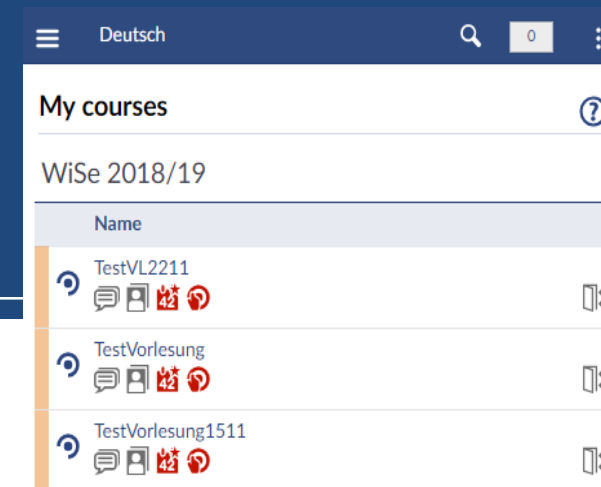

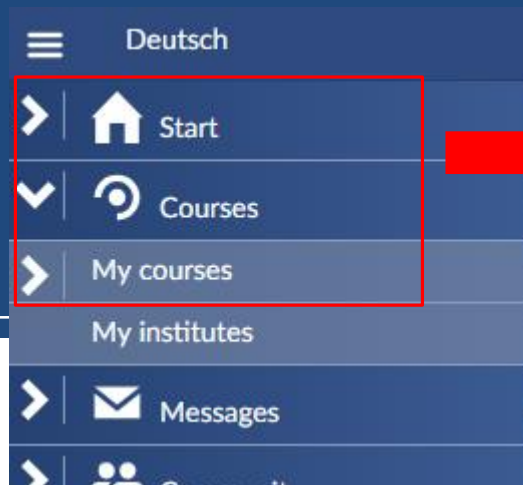

How does it work?

Online-in-Präsenz evaluation
step-by-step
For students

Step 1 – go online with your laptop, smartphone or tablet (e.g. via [eduroam](#) ) , go to eCampus and log in with your access data.

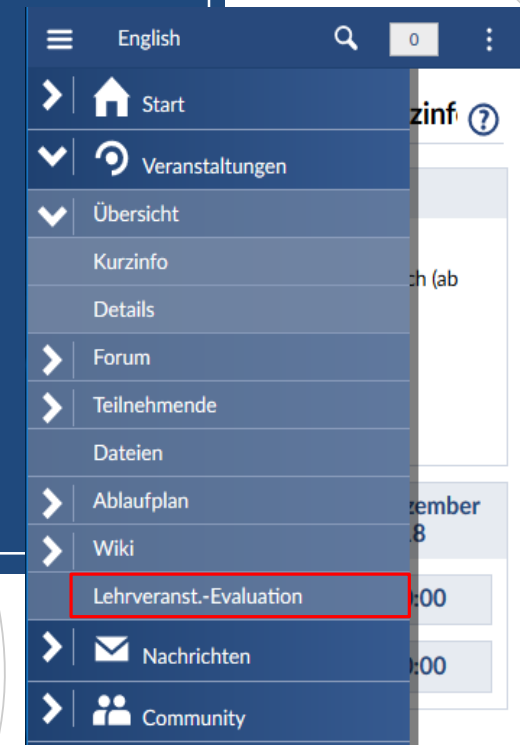

Step 2 – go to Stud.IP and select the right course under “Courses”.

Step 3 – You can find the relevant online questionnaire under the evaluation symbol  or under „Lehrveranst.-Evaluation“.

N.B. – The survey can take a while to load, please be patient!

Step 4 – Complete the online survey in German or English, and send. Done!

Students can only take part in a survey once for a course!

What should I do if ...

the WLAN doesn't
work or
the server doesn't
respond?

- a. Try to access the survey using your mobile data connection.
- b. Try again later.

If you observe problems with the WLAN reception in a building, please report them directly to **anke.klingebiel@zvw.uni-goettingen.de**

What should I do if ...

I'm not
there during the
Online-in-Präsenz
evaluation?

there is no mobile
device available
that I can use?

The Online-in-Präsenz evaluation requires a private mobile device and is not yet barrier-free.

As an alternative the evaluation can be completed later on another computer using eCampus or Stud.IP access **during the evaluation period** 7-25 January 2019.

You may use the computer rooms (CIP-Pools) and computer workstations in your faculty and in the libraries.

What is the point of this?

**Advantages of
Online-in-Präsenz evaluation**

Online-in-Präsenz evaluation

... saves resources,

... simplifies the organisational process,

... increases data quality,

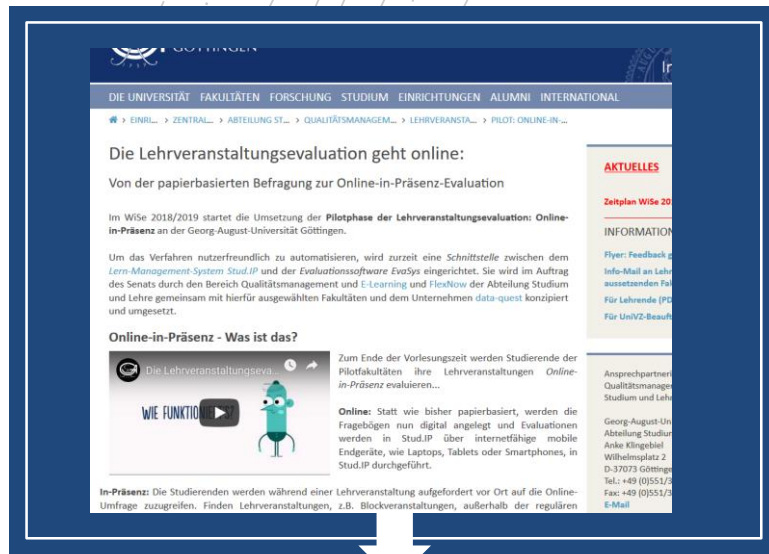

... optimises data protection.

And...

**the results are available sooner for feedback
discussions between teachers and students!**

If you have questions about course evaluation
the **Evaluation Team** at Student and Academic Services can
help
