

Anorganisches Institutskolloquium Sommersemester 2026

Montag, 18. Mai 2026, 17:15, HS MN30 (Gastgeber: Prof. Meyer)

“Selective reduction of CO₂“

**Prof. Dr. Abishek Dey, Indian Association for the Cultivation
of Science Kolkata, India**

Dienstag, 02. Juni 2026, 17:15, HS MN28 (Gastgeberin: Prof. Siewert)

“tba“

Prof. Dr. Connie Lu, Universität Bonn

Dienstag, 16. Juni 2026, 17:15, HS MN28 (Gastgeberin: Jun.-Prof. Krawczuk)

“Low-valent group 13 chemistry 25 years after Herbert Roesky's NacNacAl“

Prof. Dr. Robert Kretschmer, TU Chemnitz

Donnerstag, 14. Juli 2026, 17:15, HS MN30 (Gastgeber: Prof. Stalke)

“Ge(0) compound with ambiphilic reactivity“

Prof. Dr. Georgii I. Nikonov, Brock University, Canada

Montag, 31. August 2026, 17:15, HS MN28 (Gastgeber: Jun.-Prof. Fischer)

*“Cationic Main Group Compounds of the Heavy Elements as new Manifolds for Bond
Activation Chemistry and Catalysis“*

**Dr. Moumita Majumdar, Indian Institute of Science Education
and Research (IISER), Pune, India**

Das Programm wird laufend ergänzt und verteilt.

Koordination: Anna Krawczuk (anna.krawczuk@uni-goettingen.de)
