

To whom it may concern:

This is a report on the teaching qualities of Mr. Liguó Lin.

My name is Montse Farell I am a professor at the Department of Economics of the Universitat Autònoma of Barcelona. Lin has been my TA during this semester on the Econometrics undergraduate course. In order to have an accurate opinion I asked our students to write a confidential evaluation about his teaching.

Considering that he has not a lot of experience, the students all agree upon the extreme effort he makes to make the material very understanding and that he makes very good materials to complement the theoretical issues. Overall the opinion is very good. Considering also that econometrics is a hard topic for the students and that there is a general downgrade of the teaching evaluations on these topics, he gets a very, very good evaluation.

He is a very nice person to work with, always ready to help and to adapt his schedule when necessary.

I think he has all the qualities needed to become an excellent teacher, I highly recommend him,

Yours sincerely,

Montserrat Farell
